EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 36, a period was added at the end of the claim.

Also, the Examiner attempted to update the status of the U.S. applications listed in the specification. Please note the changes made on the attached copies of the pages of the affected specification, including pages 2, 19, 44, 50, 51, 86, 98, 100, 104, 127 and 184. The status of the application serial numbers, listed in the pre-amendment filed on 4-17-01, have been updated as well, and copies of these pages have been included in the attachment.

Terminal Disclaimer

2. The terminal disclaimer filed on 8-12-04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 5,910,854, has been reviewed and is accepted. The terminal disclaimer has been recorded.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of a variable transmission assembly having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including the amendment made to claim 1 directed to the spaced apart relationship of the first and second substrates, as well as the terminal disclaimer filed 8-12-04. Therefore, in light of the Applicants' amendments and the terminal disclaimer, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
